Location	Area 1 outside of tent ███

Persons Involved & Description	Service Provider / Transferee ID	Description / Involvement
███████████	███████	Reporter
	TIS	Interpreter

Detail of Information

CM ███ met with ███████████ with the support of an interpreter ███. During the course of conversation, ███████ (████████) requested CM ███ to speak to an IHMS doctor and request that they inject her with something so that she can die. ███████ (████████) stated that dieing is better than living. ███████ (████████) continued to state that she "has nothing, no family, no money, no future so what is the point, I would be better off dead". ███████ (████████) stated that she could never bring herself to hurt herself and that's why she wants someone to do it for her.

CM ███ spoke with ███████ (████████) about this notion and focused on some positive strategies to keep herself safe and focused on important motivators to keep her going. ███████ (████████) was able to identify her sister (████████) in Darwin as a strong motivator.
