Detail of Incident				
<p>CSPW [REDACTED] met with [REDACTED] using interpreter [REDACTED]. [REDACTED] was expressing his frustration around his daughter, [REDACTED] arm. This has been an ongoing issue for [REDACTED] and his daughter stretching over 10 months. [REDACTED] was frustrated that IHMS have not treated it and the psychological impact this was having on [REDACTED]. [REDACTED] stated that if he does not receive treatment he will leave [REDACTED] at IHMS until she is treated and the rash is clear. If they return her prior to this then he will kill her and himself. [REDACTED] would not state a time period for this to occur in or a method for killing himself and his daughter. CSPW [REDACTED] spent approximately another hour with [REDACTED] speaking to him around the concern and how leaving [REDACTED] at IHMS or conversations of killing himself and her would have a larger significant psychological impact on her. CSPW [REDACTED] discussed other complaint systems or methods, however [REDACTED] stated this would take too long. At the end of the conversation [REDACTED] stated his plan was still to leave [REDACTED] at IHMS and to kill himself and her if she was not treated and the rash was gone.</p> <p>CSPW [REDACTED] informed Whisky three shortly after the conversation with [REDACTED] ended. They stated that they were aware he had an appointment with IHMS in the morning and would talk to him prior to this.</p>
