

31/07/2015	Open	FC3810a			TSL Security	31/07 Staff complaint concerning a security staff member allegedly displaying aggressive behaviour when attempting to trade marijuana for cigarettes while the transferee was on excursion. The transferee states that he took his cigarettes with him on an excursion as he is unable to secure them in his accommodation area. When a locally engaged staff member saw him with cigarettes he allegedly attempted to trade them for kina and/or marijuana. When the transferee declined the staff member became more aggressive and eventually reported the transferee to other security staff. When the cigarettes were being removed the transferee saw the staff member who reported him saying 'Loren gaull' to other locally engaged staff. The transferee states that this indicates the transferee is 'clearly waiting for him'. The transferee requests protection from the staff member and his supporters.
